Education

University of South Florida / B.S.I.S. conc. Web Development Technologies

AUGUST 2021 - DECEMBER 2023, TAMPA

CIS 3360 Principles of Info Sec / COP 2030 Programming Concepts / LIS 2937 Database Concepts / LIS 3361 WWW Page Design & Management / LIS 4365 Web Design Tech / COP 2250 Obj. Oriented Programming (Java SE) / LIS 3352 Interaction Design / LIS 4482 Networks & Communication.

Hillsborough Community College / A.A. Computer Information Systems

AUGUST 2018 - MAY 2021, PLANT CITY

Experience

King Corona Cigars / Web Developer

JULY 2024 - PRESENT, YBOR CITY

I work in house to develop and maintain the online store for King Corona Cigars. I work to add products to their backend database and style to their front end. I occasionally do digital design work for their advertising.

kingcoronacigars.com

Zaréte / Front-end Developer

DECEMBER 2023 - APRIL 2024, REMOTE

I created some design files in Figma to help present my ideas of what I thought the site's appearance and structure should be. This would later come in great handy when actually developing the site, keeping all those involved on the same page and maintaining the overall site's brand image on various pages.

zarete.com

Data Annotation / Data Annotator

FEBRUARY 2024 - OCTOBER 2024, REMOTE

I help train LLMs as a side gig by writing prompts and evaluating their responses.

Projects

I try to always remain busy with some sort of project. Always learning some new framework or API. I've built a lot of things, from an [IP Address Tracking app](#), to a [Letterboxd clone](#), and even a [Blackjack game](#). All of these to learn new skills or keep my old ones sharp.

I upload all of my source code to a repository on my [GitHub](#) and link to their live sites on my online [portfolio](#). Feel free to click the links and see what I'm working on next.
