## SUMMARY

Versatile Web Developer with a strong foundation in front-end technologies and e-commerce development. Proven ability to design and maintain responsive, accessible websites that enhance user experience and drive business growth. Experienced in modern frameworks, CMS platforms, and collaborative design tools.

## EXPERIENCE

### Web Developer

King Corona Cigars

July 2024 - April 2025, Ybor City, FL

- Developed and maintained the entire online store for King Corona Cigars.
- Designed many digital assets for their advertising.
- Integrated responsive design practices that improved mobile usability and accessibility, elevating customer engagement and satisfaction on the King Corona Cigars platform.
- Engineered seamless e-commerce functionalities that streamlined the purchasing process, enhancing user experience and increasing online sales conversion rates for King Corona Cigars.
- Revamped the website's backend infrastructure, ensuring robust security measures and optimizing server performance to accommodate increased traffic for King Corona Cigars.

### Data Annotator

Data Annotation

February 2024 - October 2024, Remote

- Managed large datasets to ensure precise data labeling, supporting the training of AI models and contributing to improved algorithm accuracy.
- Reviewed and corrected data inconsistencies and coding errors, enhancing the quality of annotations and streamlining the training process for machine learning models.

### Front-end Developer

Zaréte

December 2023 - April 2024, Remote

- Enhanced digital customer experience by integrating interactive features and responsive design, improving user engagement and accessibility across various devices.
- Designed the site's prototype in Figma for the online osmium product distributor, translating concepts into interactive and visually appealing user interfaces that would later be implemented in Odoo.
- Integrated dynamic web elements using JavaScript and CSS within the Odoo framework, enhancing user interaction and contributing to a seamless browsing experience.

## EDUCATION
