EDUCATION

University of South Florida — *B.S. Information Science, Web Development Technology*

August 2021 – December 2023   Tampa, FL

Hillsborough Community College — *A.A. Computer Information Systems*

August 2018 - May 2021   Plant City, FL

PROJECTS

CreightonEli.github.io

I utilized my skills with HTML, CSS, and JavaScript to develop my own online portfolio where I can better showcase my work.

ScholarsWord.store

I used my skills in HTML, CSS, JavaScript, and even Adobe Photoshop for many of the photo assets to make them better suited for the web. The site itself is an online store for a band.

USF Go-To

I worked with a team to design multiple prototypes in Balsamiq for a website that would promote events and blog posts related to health and wellness activities at USF.

DF Language Translator

I developed a program from Java SE that would translate English into a fictional language from the simulation game Dwarf Fortress. I created GUI for the application as well using Swing.

HTML Canvas Effect

I created a beautiful, interactive, and responsive effect with JavaScript and the use of HTML5's canvas element. I had been meaning to learn more about canvas, so this project served as an excellent learning opportunity.

SKILLS

Advanced

HTML5

CSS3

JavaScript

Familiar

Java

C++

Python

Photoshop

Illustrator

InDesign

GitHub
